GreenStreme[®]

ORGANIC LIQUID FISH FERTILIZER

GreenStreme[®] is an organic fish hydrolysate prepared from fresh Rainbow Trout that is harvested from the Great Lakes. The patented manufacturing process involves the immediate conversion of Rainbow Trout trimmings into high quality and low-odor liquid concentrates. GreenStreme maintains the highest concentration of mineral elements, protein, oils and calcium from bone. Screened before packaging, to allow for convenience of application through most hose end applicators, GreenStreme provides an organic alternative to conventional fertilizer treatments.

GreenStreme®

ORGANIC LIQUID FISH FERTILIZER

Concentrated Liquid Fish Fertilizer

GreenStreme® is a high-yield organic fish fertilizer with a patented cold hydrolysis manufacturing process. Prepared from fresh Rainbow Trout, harvested from the Great Lakes, the trimmings are converted into a high quality liquid concentrate that maximizes the retention of fish proteins and oils along with macro and micronutrients.

Improve Soil Health

The unique process maintains the highest concentration and quality of organic matter to boost overall soil health. The natural elements, including the valuable micronutrients and calcium from bone, are preserved in their purest form to promote root and shoot strength and vitality.

High Performance with Low-Odor

The finished product is prepared immediately after fish processing to guarantee freshness and the industry's lowest odor.

Easy Application

GreenStreme® is filtered twice before packaging to allow for convenience of application using hydroponic systems and most hose end applicators.

Our organic fish fertilizer is listed with the Organic Materials Review Institute (OMRI).

COMMON AREA OF USE:

- Vegetable gardens
- House plants
- Cannabis
- Hydroponics
- Turf
- Orchards
- Vineyards
- Fruit Trees
- Trees & shrubs

SPECIFICATIONS:

Appearance: Slightly viscous brown liquid

Odor: Slight characteristic

Flash Point (CC): Not applicable

Freezing Point (°C): -0°C / 32°F Protect from freezing

GUARANTEED ANALYSIS:

N - Nitrogen (total)	1%
P - Phosphorus (available)	2%
K - Potassium (soluble)	0%

PATENTS:

Canada: 2, 546, 156

Sourced fresh from the Great Lakes

GreenStreme® is an organic fish hydrolysate prepared from the trimmings of fresh Rainbow Trout that are harvested from the Great Lakes.
